About us

Axolotl Club is an NFT collection on the Solana blockchain where our mission is to be experts in the NFT field and to be a partner in business growth that provides unmatched services and operations to help in the creation of value for our community members and business brands. We strive to provide desirable, affordable, and exceptional customer service while acting with integrity in all business relationships and generating attractive returns for all our token holders. We endeavor to build the future of finance and become the most trusted and fastest growing NFT project, helping millions across the globe – from single individuals to the largest companies – have an easy and safe way to access the blockchain.

The last of their kind...

The world, after years of pain, had finally been destroyed. Humans no longer walked the Earth; animals no longer posed a threat.. All that was left were the luckiest of the lucky, a group of axolotls beneath the water that had fought harder than anyone could imagine. Now they're left with the remnants of a destroyed world, and a renewed passion for life.

Utility

- Server Access – Holders will be given access to our premium channels in the Axolotl Club server.
- Breeding Event – The 3,333 Axolotls will be able to breed & mutate.
- Staking NFTs - Earn \$AXOL, tokenomics will be announced at our first keynote presentation.
- The Vault – A collection of NFTs in which token holders will decide what goes in the vault. The Vault will be opened throughout the year where token holders will share the sale price of sold NFTs.
- Access to the Metaverse – Token holders will have access to metaverse land.
- Internships & Scholarships – Axolotl Club will be accepting applications for paid internships positions and scholarships for students. Details will be announced at our first keynote presentation.
- Payouts – Biweekly payouts directly from secondary marketplace sales to token holders.
- Merchandise & Giveaways – We will host an online pop-up store for the community.
- P2E Axolotl Racing Game– A game where Axolotl holders have a chance to race with their Axolotl for \$SOL & \$AXOL
- P2P Attribute Trading Platform – A system where token holders will be able to trade attributes of their Axolotls with other Axolotl holders.

Mint Fund Distribution

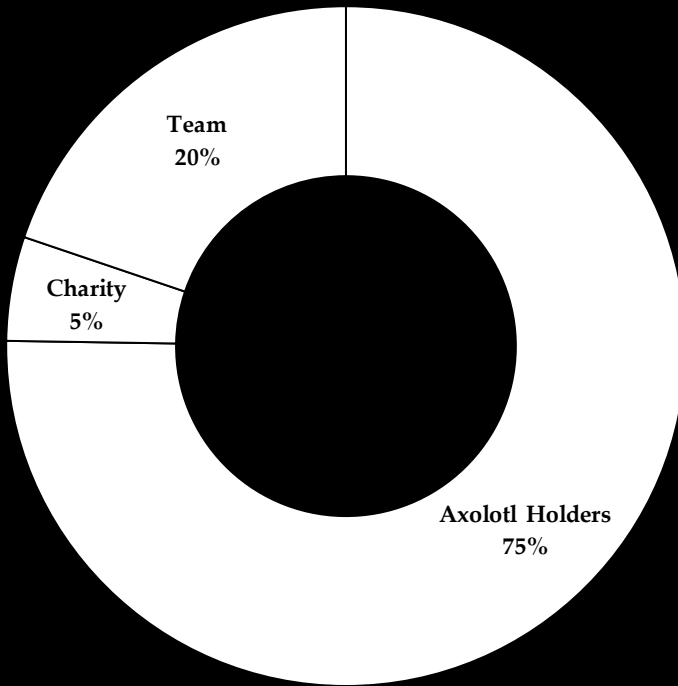

The 70% will fund the following:

- Metaverse land purchase
- The Vault
- Merchandise
- Airdrops / Events
- Internships & Scholarships
- Future developments

The 2.5% will be donated to the WFF, where they will help prevent Axolotl extinction. The other 2.5% will be donated to Save the Children, where their mission is to end childhood hunger.

The 25% will be used to pay the team.

Secondary Marketplace Profits

The 75% will be split and sent to all Axolotl holders. A snapshot will occur a few days before payout.

The 20% will be used to pay the team.

The 5% will be used for charities.
